

Childcare Advisor was founded by parents, for parents.

We know how important it is to find trustworthy childcare for our children – they deserve the best possible, safe environment to play, learn, and develop.

Unfortunately, we have had personal experiences ourselves with inadequate, irresponsible child care providers, and we know of others in NZ who have had similar negative experiences. These can leave you, as a parent, feeling upset and concerned for the safety of your child.

That's why we created Childcare Advisor; so parents around New Zealand have an online community for all the 'R's' - researching, reviewing, rating, and recommending reputable NZ child care service providers around the country. It's all on here ... nannies, in home carers, day care centres, kindergartens, and also helpful [tips and resources](#) relating to baby care and raising children.

We truly hope that this website provides you with valuable child care information and helps you find the best child care possible for your children.

You are welcome to [join our community](#), and get started today!

Thank you for your support, please feel free to [contact us](#) if you have any questions related to Childcare Advisor.
